Laboratory Aide
COVID19 Early Community Detection Program
Department of Microbiology and Molecular Genetics
Michigan State University

Position Summary

The MSU COVID19 Early Detection Program is seeking enthusiastic Laboratory Aides to support the work of the testing lab. The primary duties involve assembly of saliva collection kits. Additionally, Laboratory Aides will wash dishes, prepare cleaning solutions for the testing workstations and take kits and samples to and from the loading dock. Samples are scanned into a tracking system and prepared for testing.

Unit Specific Education/Experience/Skills

Knowledge normally acquired from specialized training such as that acquired in one year of college, technical, vocational or trade school with coursework in basic Chemistry or Biology; up to six months of experience in a laboratory setting; or an equivalent combination of education and experience.

Desired Qualifications

Bachelor's degree in science.

Equal Employment Opportunity Statement

All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, citizenship, disability or protected veteran status.

Work Hours

Working hours are 8:00 a.m. - 5:00 p.m. but must be flexible to sometimes work early mornings, evenings or weekends as needed.

Description of End Date

This is a limited-term position funded for nine months from date of hire, with possible extension contingent upon funding renewal.

Summary of Health Risks

Exposure to human saliva/spit samples.

Required Application Materials

Interested applicants should submit a resume and the names and contact information of three references to http://careers.msu.edu posting #682082. Bidding and Eligibility Ends on 11/24/2020 at 11:55 PM
